- Databases & Caching: PostgreSQL, MongoDB, Redis, MySQL, Mongoose
- Cloud & DevOps: AWS (EC2, ECS, S3, RDS), Google Cloud Platform (GCP), Docker, Kubernetes, Git, GitHub Actions, CI/CD, Terraform
- Testing & Tools: Swagger, Postman, Jira, ClickUp

EDUCATION:

NATIONAL UNIVERSITY OF LAOS

2020 - 2024

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

LANGUAGE:

- Lao - Excellent
- Thai - Fluent
- English - Intermediate

ABOUT ME:

Backend developer with hands-on experience building scalable microservice architectures using NestJS, TypeScript, and Java. Skilled in designing high-throughput REST APIs, working with PostgreSQL/Prisma, RabbitMQ, and Redis caching, and deploying containerized applications on AWS and Kubernetes with CI/CD pipelines. Experienced integrating third-party systems such as banking payment gateways and SMS providers. Passionate about clean code, best practices, and continuous improvement in fast-paced engineering environments.

EXPERIENCE:

BACKEND DEVELOPER | 2025 - PRESENT

ATCODE COMPANY

- Panda EV **2026 - Present**
 - Built the Prisma database schema and CI/CD/Kubernetes deployment pipeline for the Panda EV OCPP 1.6J EV-charging platform.
- HANKAN **2026 - Present**
 - Built the HANKAN authentication service (registration, login, and social sign-in via Google, Apple, and Facebook) and its SMS gateway/OTP service as primary backend developer.
- DAOFAGO **2025 - Present**
 - Built core backend microservices (NestJS/Prisma/PostgreSQL) for DAOFAGO, a digital lottery platform, including the lottery, points, and customer services, with payment integration across three Lao banks (BCEL, LDB, LVB).
 - Built the SMS gateway and FCM notification services for OTP delivery and customer alerts.
- Tigerhead Chat Bot **2025 - 2026**
 - Built the Tigerhead Chat Bot backend, handling bottle-cap code validation, redemption, duplicate prevention, and reward management.

BACKEND DEVELOPER | 2024

UNITEL TELECOM COMPANY

Developed a Java-based ambulance program for emergency dispatch and vehicle tracking/monitoring.
